

NORDIC YOUTH CAMP ICELAND

12 – 15 SEPTEMBER

Dear PID Youth,

It is with great excitement that NMPI, the co-operation group between the Nordic primary immunodeficiency patients' organizations, invites you to join us on our first ever Nordic Youth Camp in Iceland! We have created an adventurous and educational programme that is sure to keep you entertained, provide an opportunity to network with young adults from other Nordic countries, and will place a strong interest in learning and exploration.

Among other exciting events, beautiful Iceland will provide us with an exploration trip to an amazing lava cave, a visit to the Golden Circle, and some lovely relaxing time at the Fontana Spa.

This will be the first of hopefully many Youth Camps together with the Nordic organizations and we look forward to receiving all your applications.
